REF: [REDACTED]

1. Forwarded herewith are sanitized copies of items a, b, and d of reference as received from [REDACTED] 25X1A2g. [REDACTED] approves the passage of these reports to [REDACTED] if COS, [REDACTED] determines that their passage will further PRFRINT interests.

2. [REDACTED] 25X1A2g constructs that item b of reference may not be released to [REDACTED]

3. We are hopeful that misunderstandings over the method of servicing your requests for liaison exchange materials have been rectified and that we are in position 25X1A2g to give you the fastest possible service. As discussed with [REDACTED] 25X1A2g, confusion had been generated by differing [REDACTED] requirements and responsibilities in the handling and recording of those requests. Essentially, we regard the [REDACTED] representative as most helpful 25X1A2g in the liaison as an integral part of the [REDACTED] operational objectives with the liaison 25X1A2g service concerned. Accordingly, it is necessary both that [REDACTED] 25X1A2g project files reflect his activity in [REDACTED] behalf and that the [REDACTED] 25X1A2g request be acted upon immediately by the appropriate [REDACTED] office. The following recapitulates the mechanics whereby we hope to achieve this:
